

The Locatelli GRIL 52.47 rough terrain crane may have a safe working load of 47t but it is designed to be easy to manoeuvre and sure footed in the toughest conditions that a mobile crane operator might face.

Its boom can be extended to a tip height of 34.1m, which increases to 50.7m with the extension of a fly jib. Its powerful and reliable diesel engine makes use of the latest low-emissions technology and its compact design – just 2.5m wide – allows the GRIL 52.47 to operate in highly restricted space.

47,000kg Max Lifting Capacity

CPCS A60C Mobile Crane

Technical Specifications

Max Lifting Capacity	47,000kg
Boom Length	9.4 - 32.1m
Max Boom Height	34.1 / 50.7m
Max Working Radius	29m
Outrigger Footprint (fully extended)	6200x6200mm
Counterweight	5.3t
Travelling Dimensions	12.2m (L) 2.5m (W) 3.4m (H)
Travelling Speed	23mph
Total Weight	32,100kg
