

# GRIL 55.50

The Locatelli GRIL 55.50 rough terrain crane can go where other mobile cranes cannot. When it gets there, it provides an impressive maximum safe working load of 50t, with a tip height of 40m, extending to 48m with the addition of a fly jib.

The crane has a fully hydraulic boom that can be used to lift with outriggers deployed or on tyres only. The GRIL 55.50 delivers the right combination of lifting power, flexibility and price, with no compromise on quality.

**50,000kg** Max Lifting Capacity

CPCS A60C Mobile Crane

## Technical Specifications

Max Lifting Capacity	50,000kg
Boom Length	9.4 - 37.2m
Max Boom Height	40 / 48m
Max Working Radius	32m
Outrigger Footprint (fully extended)	6200 x 6200mm
Counterweight	5.4t
Travelling Dimensions	10.9m (L) 2.5m (W) 3.5m (H)
Travelling Speed	23mph
Total Weight	33,100kg

## Working Envelope
